

# ALPS Peak Service Training™ For Optimal Operations

Empower. Optimize. Succeed.

**ALPS**  
INSPECTION

Empower your team with service-based knowledge and expertise to ensure peak performance of your empty container inspection equipment. Guarantee quality with every product when you become a certified ALPS Peak Service Training™ professional. This exclusive training at your plant provides your employees with a full range of ALPS Inspection machine knowledge.

## Why Register:

- Become the on-site experts and help reduce the need to contact an ALPS Technician
- Reduce downtime and maximize productivity
- Troubleshoot common faults
- Increase the lifetime of your machines
- Empower all (existing and new) shift employees with in-depth ALPS insight
- Prevent the end-user from receiving random, defective containers
- Protect your and your customers' brand reputation

## What To Expect:

- Register up to ten (10) employees per 1-day session (option to register for multiple days)
- Length is approximately eight (8) hours for a 1-day session
- The agenda consists of classroom and hands-on education
- Training applies to both operator and maintenance employees
- Wireless headsets will be provided for optimal group communication
- Certification is valid for 3 years

# ALPS Peak Service Training™ Agenda

## Meet the Team

**Edward Strand**  
Applications Engineer

ALPS Inspection, 32 years  
Plastics Industry, 37 years

Ed has done it all at ALPS from design, manufacturing, building, and installation to writing technical support. "Our Techs are the most dedicated service group I've had the pleasure to work with."

**Mark P. Kloff**  
Senior Technical  
Service Engineer

ALPS Inspection, 12 years  
Plastics Industry, 20 years  
Technical Customer Support, 25+ years

"I understand the value of a happy and satisfied customer. I can count on my fellow service team for support and knowledge. We work on all types of ALPS machinery, but we each have our own specialties."

**Scott Clothier**  
Senior Technical  
Service Engineer

ALPS Inspection, 19 years

"We are dedicated to making things correct; we don't leave if there are still issues. I believe all the Techs have a heart for making the customer feel satisfied. I value my work here at ALPS because I know I make a difference."

**Wally Hunter**  
Technical Service Engineer

ALPS Inspection, 1 year  
Field Service, 8 years  
Navy Sonar Technician, 15 years

"We are thorough with setup and troubleshooting, and you'll discover that we have an extensive wealth of knowledge."
